

Peter Conley

GTM Engineer

gtm-engineer.dev | peter.david.conley@gmail.com | <https://www.linkedin.com/in/peter-conley/>

GTM professional blending 4+ years of sales experience (SDR through AE) with hands-on technical skills in JavaScript, React, Node.js, SQL, and PostgreSQL. Track record architecting sales processes, building automation and outreach systems in Apollo, Outreach, and HubSpot.

EXPERIENCE

HeroDevs — Founding SMB Account Executive: *Nov 2024 – Jun 2026*

- Founding and sole member of the SMB / Drupal NES / LATAM Enterprise Account Executive team; owned 25–50 deals at a time ranging \$50K–\$300K.
- Architected the SMB segment's pipeline forecasting process and built Apollo product sequences for all inbound leads.
- Achieved 90% quota attainment in 2025.

HeroDevs — Founding SDR: *Feb 2024 – Oct 2024*

- Attained 205% of sales quota in 2024; ran the full sales process from discovery to close for all Drupal NES prospects.
- Architected core Notion documentation, analytics dashboards, and the SDR-to-AE handoff process for the sales team.
- Built 40+ email sequences and spearheaded Drupal partner outreach, driving a 70% conversion rate.
- Synthesized all SDR reports and dashboards for team-wide visibility into pipeline health.

Vercel — Sales Development Representative: *Aug 2022 – Nov 2023*

- 108% quota attainment as Allbound SDR; Top SDR Performer (Q2 2023) and 2nd-highest monthly quota attainment in team history.
- Founding member of the Growth VDR team; built Outreach workflows and sequences that drove a 50% QoQ lift in the Enterprise funnel (127% quota attainment).
- Engaged existing Hobby and Pro accounts for upgrades and product education; sequenced existing contacts for upsell and renewal.
- Identified and qualified future customers to kick off sales cycles; managed contacts, cases, and opportunities in Salesforce.

TECHNICAL FOUNDATION — BLOOMTECH (FKA LAMBDA SCHOOL)

Aug 2021 – May 2022

- Trained in HTML, CSS, JavaScript, React, Node.js, and SQL; architected PostgreSQL databases.
- Practiced Git workflow, Agile development, and client/server testing.
